

C-DMX-TPS 5" Touch Screen

Features

- A 4.3" vivid colour capacitive touchscreen makes navigating your project's controls appealing and intuitive. It's quick and easy to activate presets, manual overrides, or even use a custom colour picker to personalise your lighting.
- Create your fully customisable user interface using the free Pharos Designer software. Create multiple pages of controls including buttons, sliders, keypads and colour pickers, and configure their appearance and visual feedback. Make it eye-catching by importing your own graphics or picking from one of our attractive themes
- Works with any Pharos controller linking using standard protocols

Technical Parameters

Input Power	Typ. Power Consumption	Input Type	IP Rating
